- A001 *Gavia stellata*; Red-throated diver (Non-breeding)
- A065 *Melanitta nigra*; Common scoter (Non-breeding)
- A177 *Hydrocoloeus minutus*; Little gull (Non-breeding)
- A191 *Sterna sandvicensis*; Sandwich tern (Breeding)
- A193 *Sterna hirundo*; Common tern (Breeding)
- A195 *Sternula albifrons*; Little tern (Breeding)

Explanatory Notes: European Site Conservation Objectives

These Conservation Objectives are those referred to in the Conservation of Habitats and Species Regulations 2017 (as amended) ('the Habitats Regulations'). They must be considered when a competent authority is required to make a 'Habitats Regulations Assessment' including an Appropriate Assessment, under the relevant parts of this legislation.

These Conservation Objectives, and the accompanying Supplementary Advice (where this is available), will also provide a framework to inform the management of the European Site and the prevention of deterioration of habitats and significant disturbance of its qualifying features

These Conservation Objectives are set for each bird feature for a [Special Protection Area \(SPA\)](#).

Where these objectives are being met, the site will be considered to exhibit a high degree of integrity and to be contributing to achieving the aims of the Wild Birds Directive.

This is a European Marine Site

This site is a part of the Greater Wash European Marine Site (EMS). These Conservation Objectives should be used in conjunction with the Conservation Advice document for the EMS. Natural England's formal Conservation Advice for European Marine Sites can be found via [GOV.UK](#).

This is a cross border site

This site lies within both the inshore and offshore waters of England. The advice of [the Joint Nature Conservation Committee \(JNCC\)](#) should therefore be sought separately.

Publication date: 21 February 2019 (version 3). This document updates and replaces an earlier version dated 12 April 2018 to reflect the consolidation of the Habitats Regulations in 2017.
