

England Peat Map

Summary of Collated Datasets

May 2025

Natural England Research Report NERR149 Annex 5

Lead Author: Tom Hunt

Contributor: Elizabeth Cooper

About Natural England

Natural England is here to secure a healthy natural environment for people to enjoy, where wildlife is protected, and England's traditional landscapes are safeguarded for future generations.

Further Information

This report can be downloaded from the [Natural England Access to Evidence Catalogue](#). For information on Natural England publications or if you require an alternative format, please contact the Natural England Enquiry Service on 0300 060 3900 or email enquiries@naturalengland.org.uk.

Copyright

This publication is published by Natural England under the [Open Government Licence v3.0](#) for public sector information. You are encouraged to use, and reuse, information subject to certain conditions.

Natural England images and photographs are only available for non-commercial purposes. If any other photographs, images, or information such as maps, or data cannot be used commercially this will be made clear within the report.

For information regarding the use of maps or data see our guidance on [how to access Natural England's maps and data](#).

Hunt, T. and Cooper, E. 2025. 'England Peat Map Summary of Collated Datasets' in Kratz, C. and others. 2025. England Peat Map Project Final Report. Natural England Research Report NERR149. Natural England.

1. Introduction

This document summarises the collated datasets used for training and validating the models. It is an annex to *England Peat Map Project; final report (NERR149)*, supporting the detailed description in there of how the data was acquired and used. It is not intended to be a standalone document.

The project team were very grateful to receive data from a large number of external data providers, either directly or through contributions to previous Natural England projects. Those datasets with a star * have been made available for download through the England Peat Map website and other Natural England platforms.

2. Summary of Collated Datasets

Table 1. External stakeholders whose data has been used in the model training and which model types. Abbreviations: WT – Wildlife Trust, NL – National Landscape, PP – Peat Partnership.
