TABLE 3

Amendment categories, June 1994

Amendment	No of sites affected
Not ancient	57
New sites (or sites reinstated from earlier draft)	28
Ancient semi-natural to ancient replanted	128
Ancient replanted to ancient semi-natural	15
Change in ownership	111
Change in conservation status	98
Grubbed or change in grubbed area	24
Not grubbed, still present	5
Area remeasured	16
Change in name	5
Change in Parish	3
Change in District	3
Change in County	11
Change in grid reference	5
Mapping error	14

Sites affected by more than one change are recorded more than once.

REVISION OF ANCIENT WOODLAND INVENTORY, ENGLAND

The ancient woodland inventories are provisional and some woods may be wrongly recorded. In addition some woods may have changed since the provisional inventory was produced, eg woods may have been felled and replanted, grubbed to make way for roads or urban development or changed ownership.

To ensure that the inventory remains as accurate as possible it is important to ensure that errors are identified and woodland changes noted.

These notes and form have been prepared to ensure that all the information necessary to make the changes is supplied.

What do we need to know?

1. Which wood?

County, name, grid reference as on the inventory print out.

2. Do you have reason to believe that the wood (or part) is not ancient? Why not? Include brief notes of reasons, eg documents consulted, field work carried out. If only part of the wood is affected include a sketch map or annotate a copy of the AWI report maps. Similarly if you find an area of woodland that you think is ancient but is not on the inventory, provide equivalent details.

3. If the wood (or part) no longer exists, what has it been replaced by?

- a. agriculture
- b. urban development
- c. mineral extraction site

If only part of the wood is affected, include a sketch map or annotated copy of the AWI report maps.

How do you know, eg aerial photograph, field visit, other report?

4. Is the wood wrongly recorded as semi-natural or replanted? Is all or only part of the wood affected? Include a sketch map, if necessary, and brief notes on the vegetation present.

In each case 2-4 have the changes occurred since the inventory was produced, use the date in paragraph 5.1 of the report, ie the date of the then most recent survey or was the wood wrongly recorded on the provisional inventory.

5. It would also be useful to have a note of the sites examined during the study and confirmed as correct on the provisional inventory/a copy of the report maps.

6. Changes in conservation status.

Has the site become (or ceased to be) a SSSI, NNR, LNR, County Trust Reserve, RSPB Reserve or WT Reserve since the provisional inventory was produced?

Include a map showing the boundary of the 'reserve'.

7. Changes in ownership.

Has the site come into public ownership or been sold by a public body since the provisional inventory was produced, ie is it now owned by any of FC, Local Authority, County Trust, NT, WT, RSPB or other public body?

Include a map of ownership boundary.

8. Name and address of whoever made the observations so that they can be contacted if further information is needed.

ALTERATIONS TO ENGLISH ANCIENT WOODLAND INVENTORIES

Please send to: Woodlands Section, Lowlands Team, English Nature, Northminster House, Peterborough PE1 1UA.

1. Name of Wood

2. County

3. National Grid Reference

Nature of alteration ✓ those which apply

4. Ancient status

5. Semi-natural area

6. Replanted area

7. Grubbed area

If further grubbing to which of

a. agriculture

b. urban development

c. mineral extraction

8. Boundary error

9. Conservation status

10. Ownership (public bodies only)

11. Justification and further details for each of 4-10 above

Has this happened since AWI produced? Enter date if known.

12. Sketch map of area affected (or annotate copy of AWI report maps)
